

The Open Source Brain repository - Feature #26

Breadcrumb trail on Project Overview page

19 Oct 2012 10:32 - Padraig Gleeson

Status:	Closed	Start date:	19 Oct 2012
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	v0.1		
Description			
<p>There should be a trail similar to the Explore tree on the project specific pages, e.g. Vertebrate / Mammalian / Rodent / Cerebellum / Granule cell / Solinas et al to facilitate navigating back to similar projects. Clicking on one of these should jump to the Explore page with the appropriate place in the tree open.</p> <p>This trail could potentially be extended when the different (views of) parts of the model are explored, e.g.</p> <p>... / Ion channels / KM / NeuroML 2</p>			

History

#1 - 19 Oct 2012 10:32 - Padraig Gleeson

- Tracker changed from Bug to Feature

#2 - 23 Nov 2012 11:26 - Padraig Gleeson

- Target version set to v0.1

#3 - 14 Feb 2013 15:41 - Matteo Cantarelli

- Status changed from New to Closed
